When a fire exists or threatens the camp, the fire warning siren will be sounded for as long as necessary by administrative persons. All residents of the camp will gather at the volleyball court. Campers will gather with their respective village by counselor group. Each counselor will take a head count and report to his or her village leader, who in turn reports to the Summer Program Director. Should persons be missing from the head count, the Executive Director, or his appointee, shall determine the appropriate action needed for locating the missing persons.

The assembled staff and camper groups will depart the camp toward Hillside, following Billy Humble Road (County Road 198). Motorized transportation may be used, as deemed necessary by the Executive Director, in consultation with the officials of the United States Forest Service.

If an evacuation of the camp is required, the Executive Director or his appointee will designate two people to re-check every building on the campsite starting at the western boundary and moving toward the Pavilion. At that point, they will report to the Executive Director and the Director will then take whatever actions necessary to complete the evacuation.

A fire drill is to be conducted each week of summer camp to determine the practicality of the above plan. All persons are expected to give attention to the above listed fire evacuation plan.

Revised, May 2025
